

1. Topics -

2. Name of the event - Artificial Brilliance/ Brain Bossing
3. Budget – Include cost of posters – 1k, Cost of Refreshment for Guests speaker and Professors = $5 \times 100 = 500$ (no water or drinks for students)
4. No charge from student to attend it (A free seminar on AI and ML)
5. No. of posters $50(\text{copies of A2}) \times 10 + 2 \times 100$ (Big banner of seminar with name and design)

SEMINAR 2018

Artificial Intelligence & Machine Learning

October 6th 2018
Saturday 9.00 AM - 1.00 PM

Free Event with Refreshment

Explore along with Simple Analytics

VENUE:

The Westin

154, Velachery Main Rd,
Velachery, Chennai
India

Agenda:

- Introduction to Artificial Intelligence
- Key Note: Azmath Pasha (Head of Data Science & Artificial Intelligence)
- Demonstrate Use Cases (Chatbot, Autonomous cars, Video Analytics)
- Boot Camp in Machine Learning
- R & Python Monologue (Leading Data Science Framework)
- Panel Discussion with Experts
- Q & A

Can we simulate human intelligence?

About Simple Analytics

Simple Analytics, a technology service and solutions provider with Data Sciences and Analytics capability, enables enterprises to inject analytics into their business processes to increase revenue, reduce costs, and mitigate risks. Simple Analytics addresses the data complexities of high-scale and mission-critical distributed processing from the cloud to the edge, IoT analytics, and container persistence. Global 2000 enterprises trust the Simple Analytics Data Platform to help them solve their most complex ML, AI, and analytics challenges.
